ITUC message of condolences following the attack in Brussels

Dear Colleagues,

On behalf of the global trade union movement, I offer our condolences, sympathy and solidarity to our Swedish sisters and brothers in the aftermath of the terrorist murders in Brussels – just a kilometre from our offices – on Monday evening, 16 October. Please be assured that our thoughts are with all Swedish people, but especially those in our family, and particularly the families, friends and work colleagues of those killed in the attack.

The murder of individuals is never justified, and we above all know that the solution to conflict is negotiation, dialogue and social justice. We will keep that message in our hearts as we remember those affected here and around the world.

Yours sincerely,

Luc Triangle
General Secretary
