

Have you heard about the **SECRET** plan to regulate the internet?

In early December the Telecommunication Union (ITU) the UN agency for information and communications technologies, will vote on a secret plan to regulate the internet, that hasn't been debated in public.

THE PLAYERS

Who are the ITU?

The ITU is made up of governments and corporations and has regulated telegraphs, telephones and faxes since 1865.

Now the ITU wants to extend its power to regulate the internet.

THE RISK

Making you pay
