### **Attacks on the trade union movement in Bahrain**

On behalf of the International Trade Union Confederation, Education International, the International Federation of Journalists, the Belgian trade unions ACV/CSC, ABVV/FGTB and ACLVB/CGSLB, with a total membership of more than 176 million workers around the world, we want to express our deepest concern at the on-going attacks on the Bahraini trade union movement.

Dismissals of workers for participating in demonstrations and marches, calling for democracy and reforms have increased and are clearly focusing on the leaders of trade union organisations.

Real fears continue to prevail regarding the personal safety of trade union leaders. This includes the leadership of the General Federation of the Bahraini Trade Unions, the leadership of the Bahraini Teacher Association and at least 68 journalists, working for two leading Bahraini newspapers and human right's defenders

They all are being accused by your government and parliament of leading a conspiracy to overthrow the regime. All these false accusations are only an excuse to target the independence and the integrity of the trade union movement.

We urge you to:

- Ensure the immediate and unconditional release of all detained trade unionists, teachers, journalists, students and workers;
- Put an end to all acts of harassment against trade union leaders and activists;
- Reinstate all fired workers and guarantee the return of all trade union representatives to their jobs and allow them to resume their trade union functions;
- We urge you to re-establish a climate of respect for press freedom which the right of the public to accurate information requires and to release all detained journalists;
- We request that you engage in a respectful dialogue to bring about a peaceful and fair solution to the issues and legitimate claims of the Bahraini people;

As a member of the ILO, Bahrain is bound by international treaties, and we remind you that your government must fulfil its obligations and respect trade union rights and fundamental liberties such as freedom of expression and freedom of association.
