

## GOOD PRACTICES IN TRADE UNION DEVELOPMENT COOPERATION

WEBINAR: 16 NOVEMBER 2021 1:00 – 3:30 PM BRUSSELS TIME

Please register [here](#)

Throughout decades of trade union development cooperation, the trade union movement has acquired a vast amount of knowledge and experience on how to best carry out international solidarity initiatives that can strengthen trade unions' capacities and impact.

The Trade Union Development Cooperation Network (TUDCN) through its Development Partnerships work has been promoting the exchange of experiences in Global and Regional meetings and through the [Trade Union Development Projects Directory](#), which provides information on trade union development cooperation projects around the world.

In order to take this exchange of experiences and knowledge further and discuss how to capitalise best practices in trade union development cooperation, the TUDCN is organising this Webinar in which Solidarity Support Organisations and national trade unions will share their best practices in trade union development cooperation interventions to learn from each other how to best tackle similar contexts and move forward towards a more effective approach in their international solidarity initiatives.

### DRAFT AGENDA

1:00-1:10	Welcome and opening	<b>TUDCN and Belgian trade union</b>
